Recommendation

It is recommended that the Board of County Commissioners accept the conveyances of various property interests for road purposes to Miami Dade County. The attached instruments are being forwarded in one (1) Resolution for Board of County Commission acceptance.

Scope

The properties being conveyed are located within various Commission Districts and are thereby listed individually below.

Fiscal Impact/Funding Source

The total fiscal impact as a result of these conveyances being accepted is approximately \$225.00 annually for maintenance costs associated with the subject rights-of-way being included in the Public Works and Waste Management Department (PWWM) inventory. These costs will be funded through PWWM's General Fund allocation.

Track Record/Monitor

PWWM is the entity overseeing this project and the person responsible for monitoring these acquisitions is Mr. Leandro Ona, Chief, Roadway Engineering and Right-of-Way Division.

Background

These right-of-way dedications are being obtained to fulfill various zoning and land development requirements to effectuate the improvements needed within the public right-of-way to meet county roadway standards. Each individual site is listed below outlining the specific requirement for each.
